AUDITOR'S REPORT

Salisbury, N. H., Jan. 27, 1951

I hereby certify that I have examined the accounts of the Selectmen, Treasurer, Collector and other town officers and find them correctly cast and properly vouched

ALFRED H. SAWYER, Auditor.

FOREST FIRE PREVENTION PAYS DIVIDENDS

Most forest fires are preventable because someone is responsible for them. State records for 1950 show 94% of 632 fires resulted from human perversness and carelessness. Refusal to secure the required warden permit before burning; failure to use good judgment, lack of equipment and assistance while burning; carelessness in smoking and poorly conditioned woods equipment (trucks, tractors, etc.) resulted in a total of 6090.6 burned acres with a loss of \$63,949.10 in valuable property.

Fortunately, these human factors can be dealt with because people can be reached. This the local forest fire warden tries to do by informing his fellow citizens that EVERYONE MUST—

1. Secure a written permit to burn in or near woodlands when the ground is not covered with snow.

2. Use good judgment in burning and have enough equipment and assistance to keep the fire under control at all times.

3. Be careful when smoking in or near woodlands and refrain from throwing lighted material from automobiles.

4. Make sure that all equipment used in the woods is in good condition.

His success depends entirely upon public reaction to his appeals. He does his part—the rest depends upon YOU and

YOUR compliance with burning requirements

YOUR care with YOUR fires and YOUR Smoking and

YOUR care of motive equipment you use in the woods.

It all aids, materially, in reaching the desired goal, the PREVENTION OF FOREST FIRES—because PREVENTION PAYS DIVIDENDS!

THE SCHOOL BOARD'S REPORT

To the Citizens of Salisbury:

During the past year a new roof was put on the Heights school building so that at the present time we feel that building is in very good repair and should not need any great repair expense for some time to come with the possible exception of an outside paint job.

At the South Road school the school board refinished the inside with the help of Mrs. Charles Brockstedt who furnished the paper at no expense to the district and also helped hang it. We wish to express our sincere thank to her for this help and also for the help she has given the teachers with music in both of the schools.

The budget for the coming school year, 1951-1952, shows a great increase but if you will notice the figures almost the entire increase can be traced to the increase in tuition rates for the high school pupils. Also this next year will find the greatest number of pupils attending high school from Salisbury that have ever taken advantage of secondary education. After this year the high school children population will decrease for the next three or four years unless new families move into town.

You will note that the school board has an increase in for the teachers of the district. This was done for two reasons, first the board and superintendent are grateful to the teachers for not asking for a cost of living bonus as practically all other voters in surrounding districts are to be confronted with this problem at their annual meetings. Secondly the teachers asked that the raise be put in with the understanding that the raise would be returned to the district to help pay for the high school bus. this was presented to the budget committee but after much discussion it was decided that it would be illegal to do and also in some quarters the wrong impression would

be taken. We are deeply grateful to the teachers for their offer and also for their continued cooperation, service, and thoughtfulness to the children and district. We have been told there is a possibility that the State Board of Education may raise the minimum salary and if this is the case the local board will have to ask for a deficiency appropriation a year from now. Our teachers will be the lowest paid teachers in this part of the state at their present rate.

The transportation contracts still have a year to go and the high school bus contract is due to be renewed at the present rate if the district wishes to continue transporting the high school pupils.

The school lunch program is still meeting with success among the children. We are grateful to the Salisbury Parents and Teachers Group for their work and hope if the voters feel they can not contribute district money to the cause, that they will help with donations of whatever they can give to keep the program in operation another year. To Mrs. Dana Parks, Jr., we are especially grateful for all the work and time she has given at no expense to the lunch program or the school district. To the people who have contributed time and produce we express our sincere thanks. We are also grateful to the Franklin Frozen Foods service for their contribution in storing foods at the locker for us. Even though Mr. Bourassa is no longer a resident of the town he still continues to serve the interests of the community.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Salisbury:

The report of the Superintendent of Schools is submitted:

The greatest problem of the Salisbury School District seems to be the South Road School, with its location at a very hazardous spot. The question of building ownership and the responsibility for repairs is complicated.

Consideration should be given to finding a safe location for the children attending this school.

The School Board of Salisbury made a progressive step when the lower grades were all placed in the South Road School and the upper grades in the Heights School. The next logical step would be to have the two schools consolidated.

The School Board, Parent-Teacher Association and citizens of Salisbury deserve commendation for the maintenance of an excellent school lunch program. The lunch program will need assistance from the taxpayers this year, because federal aid will be reduced and the amount of federal surplus food will probably be decreased.

The seventh and eighth grade pupils are probably handicapped by the lack of instruction time from the teachers and the appearance of a home economics and industrial arts program. It is suggested that the probability of sending those children to some community maintaining a Junior-High School program be studied. The expense would be justified by the better education for the seventh and eighth grade children, and improved education for the first six grades because of more available instructional time.

The Salisbury budget will be increased this year because

of the high cost of tuition. Tuition in most high schools will be \$225.00 per pupil, with a few schools charging as high as \$275.00. The terrific increase in the tuition charged by Franklin is responsible for the great increase in the Salisbury budget.

The School Board of Salisbury is very interested in the schools and is responsible for the excellent books and supplies provided for teachers and children. The school board members devoted a great deal of time to meetings, to discussions concerning the improvement of the schools, and even to manual labor in cleaning and painting,—all without cost to the taxpayers.

I wish to thank the School Board, the teachers, and the citizens of Salisbury for the cooperation and assistance during this year.

Respectfully submitted,

GORDON L. FOX,

Superintendent of Schools.
